The Moles Charitable Fund launched a fundraising initiative in 2022, “**Fund the Future**”, to rejuvenate and expand the scholarships provided to junior and senior students at our participating colleges and universities who have expressed an interest in pursuing a career in tunneling, heavy construction and the engineering and associated professions related thereto. Twenty-two schools participate in The Moles Education Program, with over \$400,000 awarded in scholarships in 2023. The Fund’s Board’s intent is to increase the value of and/or the number of scholarships available to each participating school as the endowment and earnings therefrom allow. In conjunction with that, the MCF will also work to increase the number of participating schools. As a result, there is a genuine need to increase the endowment of the Scholarship Fund. Consequently, the Board of the Fund is requesting that members and friends of The Moles seriously consider participating in this fund-raising effort and would be especially grateful for your assistance in this effort to educate and recruit the new leaders of our industry.
