Internship Focus: Tunnel Project

Internship Opportunity: Summer Intern - paid

Internship Location: Tri-State Area of New York, New Jersey and Connecticut

Internship Description: The Field Engineer Intern applies basic concepts and techniques to plan projects, develop basic installation drawings and contribute to intermediate project milestones. He or she has knowledge in civil engineering concepts and can quickly adapt to a fast-paced environment. The ideal candidate will be eager to learn and work well in a team setting. The intern will maintain a good knowledge of the contract specifications, documents and the scope of work, including subcontracts and purchase orders and assist in development of project status reports and profit projections. In addition, the intern is responsible for monitoring activities at construction sites and assisting the Superintendent and Project Manager with site management.
