Internship Opportunity: Summer Intern - paid, Spring Intern - paid

Internship Location: NJ

Internship Description: West Bay Construction, Inc. is a General Contractor located in Southern NJ. Our contracting operations include underground utility installation, roadway and highway improvements, site development, structural concrete, bridge rehabilitation, pump stations and sewerage treatment facilities. West Bay provides employees stability and growth with a reputable and established construction company. We strive to stay current using state of the art in technology in an ever-changing industry. Continuing education and pursuit of your professional engineer license is encouraged and supported. Interns will assist with project startup, field engineering, scheduling and estimating. Interns will be based out of Absecon, NJ with occasionally travel to project sites located throughout South Jersey.
