Internship Description: OHLA USA provides an internship program that allows college students to achieve meaningful work experience relating to their studies. The program requires individuals to commit a minimum of 10 weeks and is expected to work a minimum of 20 hours per week. During their time with the company, interns are effectively exposed to various areas of the business.

In their first week, interns will be introduced to the different areas of what constitute OHLA USA from a variety OHLA USA team members. Students will be given presentations about the business, they will learn company culture, and will also be provided with compliance training. The goal of our internship program is for students to develop the knowledge and skills required to increase professional growth and set the stage for their future careers.
