A. Internship Focus: Construction Management

Internship Opportunity: Summer Intern - paid, Spring Intern – paid

Internship Location: Boston Region, Tri-State Area of New York, New Jersey and Connecticut, PA, VA, NC, KY, OH, IN, IL, DC

Internship Description: Our internship program will prepare you for leadership positions both on and off the jobsite. Our program allows you to travel across the United States and through operational divisions to gain hands-on experience in project engineering and field management. We carefully match you with positions related to your academic and career goals, setting you up for the right career path after graduation. Our interns work on jobsites or in the office helping with pursuits in our estimating and preconstruction departments.

Responsibilities

Interns will learn about multiple career paths in our company and will be trained to become full-time project engineers after college graduation. A few examples of the duties and responsibilities include but are not limited to:

Assisting project manager or field supervision staff with project coordination

Writing RFIs, submittals, and assisting in change orders

Soliciting bidders and coordinate subcontractor activity

Scheduling of various contracts and materials

Document control

Safety management

Quantity take-offs

Participation in team meetings
