Junior-Year Students in Civil Engineering and Construction-related Studies Scholarship Information:

Every year The Moles awards scholarships to deserving students at participating colleges. Selection of scholarship recipients will take into consideration those who attended Students Day and meet the below qualifications.

Who Can Apply: Junior-year student enrolled in a civil engineering or construction management program.

Application Timeline: Applications will be made available in January. Contact your Professor!
Submission Deadline is March 31st

Applicant must demonstrate a professional goal of achieving a career in the heavy construction industry by either having completed, or by receiving a committed offer to, an internship or part-time or full-time summer employment in the heavy construction industry with a heavy civil contractor or construction-oriented engineering firm. If the student has already completed an internship, please provide a letter of recommendation from the employer. The Moles may request an interview with an applicant to assist in the selection process.

Scholarship Recipients will be announced in early May. For details and application contact your Professor or Department Chair.

Internships

Internship opportunities with Moles members' firms can be found under the Student Section & Education Tab on:
