MARINE • SUB-AQUEOUS OR OTHER HEAVY CONSTRUCTION

Sophomores and Juniors in Civil Engineering & Construction Management

2026 Scholarship Information:

Every year The Moles award scholarships to deserving students at participating colleges. Selection of scholarship recipients will take into consideration those who attended Students Day and meet the below qualifications.

Who Can Apply: Sophomore and Junior-year students enrolled in a civil engineering or construction management program.

Application Timeline: Applications will be made available in February.

Submission Deadline is April 15, 2026

Applicant must demonstrate a professional goal of achieving a career in the heavy construction industry by either having completed, or by receiving a committed offer to, an internship or part-time or full-time summer employment in the heavy construction industry with a heavy civil contractor or construction-oriented engineering firm. If the student has already completed an internship, a letter of recommendation from the employer would be beneficial. The Moles may request an interview with an applicant to assist in the selection process.

Scholarship Recipients will be announced in early May.

For details and application contact: _____

in the Civil Engineering or Construction Management Department.

Internships

Internship opportunities with Moles members' firms can be found through The Moles website under the Student Section and Education tab:
